

# Application Setup Help

Once you have downloaded the Zip file from the portal, please follow the required steps to run the application hassle free.

1. Right Click on the file and click on **Properties** to **Unblock** the **Security** option and click on **Apply** and Unzip it.

2. Once Unzipped, please run the **Assignment2 (Application)** as shown in the below image

This PC > Downloads > Application > Application

Name	Date modified	Type	Size
